

SPILL CONTAINER PRODUCT IDENTIFICATION TAGS

OPW Color-Coded Spill Container Tags positively and conspicuously identify tanks, preventing costly and dangerous product drop mistakes. Simply “peel & stick” the high-visibility color inserts into the special recesses cast into the spill container cover. Matching bucket tags, supplied with tie wraps, are permanently affixed inside of the spill container to help prevent covers from getting switched.

Features

- ◆ **Unique Fiberglass Embedment Process** - Ensures that the color identifiers won't scratch, crack, peel, weather or fade, even in gasoline and the harshest of environments.
- ◆ **Compatible** - with all OPW 1-2100 Series Spill Containers, including aluminum, cast iron, sealable cover, and 101BG Composite Cover models. Also compatible with POMECO 111 Series, POMECO Multi-Port Spill Containers, and OPW 104FG/104C Manhole Covers.
- ◆ **Available in All API Product I.D. Designations.**
- ◆ **Custom Designed Insignias also Available Upon Request.**
