OPW Fueling Components Announces the Acquisition of Environ Holdings

CINCINNATI, OHIO - October 9, 2006 – OPW Fueling Components, the global leader in commercial and retail fueling equipment announced today that it has successfully completed the acquisition of Smithfield, North Carolina-based Environ Holdings. News of the acquisition was released during the opening hours of the industry's largest tradeshow & exposition, the NACS Show 2006 sponsored by the National Association of Convenience Stores (NACS) and the Petroleum Equipment Institute (PEI) being held this week in Las Vegas, Nevada.

"It's exciting to consider the breath of solutions and possibilities that will result from the union of the two leading companies in environmental products," stated Environ CEO, Mike Webb. "We believe this union creates the kind of dynamic organization that'll have a tremendous positive and beneficial impact on the industry and protection of the environment, greater than what either company could have had independent of one another".

Environ, founded in 1990, is a manufacturer of innovative and environmentally safe fueling components which make up a complete fuel delivery system connecting the underground fuel storage tanks to the vehicles' fuel tank. The company's patented flexible piping and containment solutions include the GeoFlex™ flexible coaxial fuel pipe and fittings, liquid tight pipe entry fittings, liquid tight and testable containment sumps and impermeable fueling hose.

"Our mission at OPW is to provide the most effective environmental solutions in the world for our customers," stated OPW president Craig McNeill, "and to that end, we saw in Environ the same kind of commitment to customer and quality and knew that by combining forces we'd create an unbeatable team capable of developing even better solutions to meet our customers' needs."

OPW Fueling Components, founded in 1892, is the global leader in dispensing products, environmental products, fuel management systems and clean energy fueling products, including dispensing nozzles for vapor recovery, gasoline, diesel, LPG, Hydrogen and CNG; swivels, breakaways, valves and fittings; underground and above ground storage tank equipment, spill containers, overfill prevention devices, secondary containment sumps and flexible piping; tank gauging equipment and automated fuel management systems. OPW is A Dover Company (NYSE: DOV).
